

Patrick Hardy

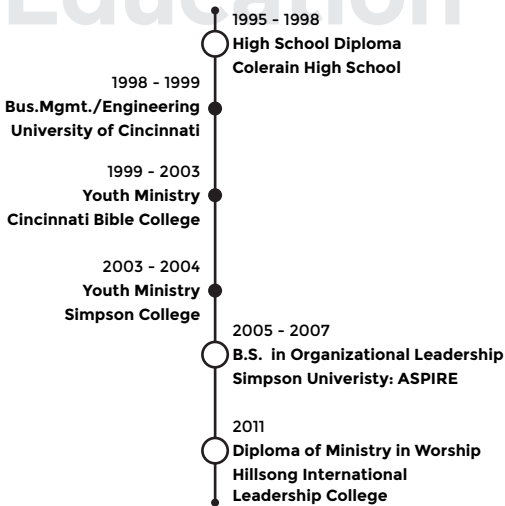

Graphics & Web Designer
Art / Creative Director
Social Media Consultant
Strategist

Profile

“ I want to grow, gain experience, and expand my knowledge in whatever position that I'm in. I'm a guy that looks at life, and design, and thinks 'how can it be better?' I see things for what they could be, as well as, appreciate things for what they already are. I love change, new things, and working with teams of people. I also enjoy having time to focus and get things done on my own. I work well under pressure, but really enjoy organization and planning things well. Communication is key to surviving and thriving, so I try to do it as often as possible.”
